

The image shows a detailed black and white layout of a printed circuit board (PCB). The layout is rectangular with a complex, irregular shape. It features a dense network of black traces and pads on a white background. The traces are of varying widths and connect various components represented by small black shapes. There are several large, solid black areas that appear to be cutouts or specific functional blocks. At the bottom left, there is a small '+' sign, and at the bottom right, there is a small '-' sign. In the center of the board, the text "Design: Dr. B. Jagodic" is printed in a simple, sans-serif font.

Design:
Dr. B. Jagodic
